

Installing the cloudLibrary App on a Kindle Fire (HDX) Installation

Use these instructions to download and install the cloudLibrary app on your Kindle Fire. This process requires Android 2.3.3 and up. The Kindle app will NOT notify you of system updates. To get the latest version, uninstall and reinstall the app using the instructions below.

Complete this first task only if you haven't enabled your Kindle for apps from "unknown sources."

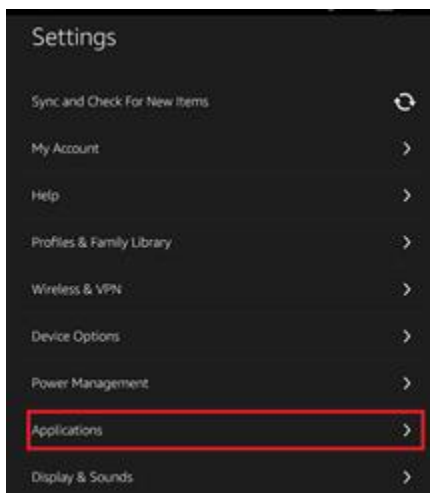

1. From the **Home** screen, tap **Apps**.

2. Tap **Settings**.

3. Tap **Applications**.

4. Turn on **Apps from Unknown Sources**. A warning message will display, tap **ok**.

5. Tap **Home** to return home.

You are now read to download and install the cloudLibrary app

1. From either the **Kindle Home** or **Apps** screen tap on the **Silk** browser:

2. Download the [Kindle Fire App](#) file.

3. Tap **Confirm** to the download prompt.
4. Tap **Download Complete**. Tap to open prompt.
5. At **Do you want to install this application?** tap **Install**.
6. When the app installed screen appears, tap **Done**.
7. Tap **Home**:

8. Tap on the **cloudLibrary** icon:

9. Tap the **Connect to Your Library** button:

10. Select your **Country** from the drop down and then choose your **State**.
11. Select your **Library** from the list.
12. Enter your **Library Card and Pin/Password**, agree to the **End User License Agreements, Terms of Use and Privacy Policy**

Installation is complete. You are ready to use the cloudLibrary.
